Mr. Garrison

I tried reaching you on your cell phone, however your mailbox is full and I could not leave you a message. I will like to discuss with you the RST 2 request to amend the Carolina Pyrotechnics TDD, adding hours to complete the Final Sampling Trip Report, QAPP and the Data Validation report. At the moment 97 % of the hours have been used to complete the assigned tasks.

Additionally, RST 2 will like to inform that the Carolina Pyrotechnics QAPP was delivered to your office today, verify the document and if no additional changes are required provide your signature in the corresponding page for our records.

Please contact me at your earliest convince. RST 2 will not be able to continue working on this project once the assigned hours are exhausted.

Mr. Garrison

RST 2 will like to inform that 70% of the hours assigned to complete the tasks described in the TDD from the Carolina Pyrotechnics (TO-0013-0106) site have been used. RST 2 will like to request additional hours, an estimate of 50, to complete the Final Sampling Trip Report, HASP, QAPP and the Data Validation.
